

EXPERIENCE

O-mega

Senior Full Stack Developer

SEPTEMBER 2024 – NOW

- Leading all engineering efforts in an AI agent startup, overseeing full-stack architecture and development
- Rebuilding vanilla JS frontend into a modular **Next.js (App Router)** app, improving maintainability for faster development
- Refactoring an existing **FastAPI** backend application with **type safety**, restructured the codebase and deployed it with **Render**
- Building **AI-driven** features like LLM prompt tuning and **browser automation** to power agent workflows

The Cognition

Senior Full Stack Developer

OCTOBER 2024 – NOW

- Main frontend developer for an international e-learning platform supporting users on the autism spectrum
- Developing a **C# (ASP.NET)** backend to support new frontend functionality and improve API responses
- Modernized legacy frontend by migrating from **Pages Router** to **App Router**, resolving styling and performance issues
- Improved build times and ensured proper resource caching with **GitHub Actions**, **Docker** and **Azure**

HeroHunt.ai

Senior Frontend Developer

AUGUST 2023 – JUNE 2024

- Main frontend developer in an AI recruitment startup
- Built a web app and a browser extension from scratch using **Next.js (App Router)**, **React**, **Tailwind CSS**, **Tanstack Query**
- Introduced **React Server Components** and prefetching strategies to reduce bundle size and improve loading times
- Minimized overfetching with **REST API** improvements

Samsung R&D

Software Developer

JULY 2022 – JULY 2023

- Independently built a frontend application for managing cloud infrastructure using **TypeScript**, **React**, **MUI**, **RTK Query**
- Developed a back-end application in **Java (Spring Boot)**
- Maintained **NLP** code in the Bixby voice assistant team
- Created an **Electron** desktop app to automate internal release processes, integrated with **Git**, **GitHub**, **Jenkins** API and **CLI**

PROJECTS *(more on [niziolek.dev](#))*

Mouse Pinch-To-Zoom

2021

Browser extension · 12,600 users · 4.8/5 rating

Emulating touchpad pinch-to-zoom with a mouse wheel

YouTube Custom Speed

2021

Browser extension · 22,600 users · 4.7/5 rating

Easy way to customize YouTube playback speed

Developolis

2025

Fullstack application · Next.js, AdonisJS (Node.js), PostgreSQL

Corporate training, gamified

SplitSMART

2023

Fullstack application · Flutter, FastAPI (Python), MongoDB

Split bills with friends using OCR receipt scanning

SKILLS

Frontend HTML, CSS, JavaScript, TypeScript, React, Next.js (Pages Router, App Router), React Server Components (RSC), Tailwind CSS, MUI (Material UI), Framer Motion, Tanstack Query (React Query), Redux, Webpack, Playwright, Cypress, Prettier, ESLint, Electron, Flutter

Backend Node.js, AdonisJS, Python, Flask, FastAPI, Pydantic, Beanie (ODM), SQLAlchemy (ORM), Poetry, uv, Ruff, Java, Spring Boot, Firebase, C#, ASP.NET, SQL (Microsoft SQL Server, PostgreSQL, SQLite), MongoDB

DevOps Microsoft Azure, Google Cloud Platform (GCP), Docker, CI/CD, GitHub Actions, Jenkins, Render, Vercel

Other Git, OpenAPI, UI/UX Design, Figma, Cursor AI, Browser Use

Languages Polish native, English C2 (CAE certificate), Spanish C1, Italian B2, Russian B2, Ukrainian B2, German A2

EDUCATION

Warsaw University of Technology

2020 – 2024

Bachelor of Science in Engineering – with honors

Computer Science and Information Systems

Faculty of Mathematics and Information Science

Warsaw University of Technology

2024 – 2025

Master of Science

Data Science

Faculty of Mathematics and Information Science
